EDUCATION

ITM (SLS) Baroda University 2024 – 2028
B.Tech in Computer Science and Engineering — Vadodara, Gujarat

PROJECTS

SignSpeak AI — Real-Time Sign Language Translation github.com/sachirokadia/signspeak-ai

- Real-time sign-language translation PWA converting webcam hand gestures into text and speech; all inference runs **on-device** in the browser, so no video ever leaves the user's machine.
- Three-stage gesture pipeline: **MediaPipe** hand tracking (21 landmarks), custom-trained **ONNX** neural network (**88.8%** held-out accuracy on 1,004 labeled images), geometric rule-based fallback with 8-frame stability voting; 47 automated tests.
- Shipped Gesture Studio (train custom gestures from webcam samples, models persisted in-browser via IndexedDB), live performance HUD, two-way conversation mode, and guided Learn mode.

StudyGen AI — AI Study Companion github.com/sachirokadia/studygen-ai

- Full-stack AI study platform (**React** + TypeScript + Tailwind; **Express** serverless backend; **Neon Postgres** via **Drizzle ORM**) on **Vercel**; also shipped as a signed Android APK via Capacitor.
- Integrated the **Groq** LLM API to generate study packs — summaries, flashcards, quizzes, AI study paths — from PDFs, YouTube links, pasted text, or topics; chat completions with retry/backoff, JSON-mode structured output.
- SM-2 spaced-repetition flashcards, timed quizzes with explanations, three-level Ask-AI explainer, focus timer, JWT auth with personal deck library, bilingual English/Hindi UI.

JanMind — Civic Intelligence Platform github.com/Maher-Bhatt/Civic-Sathi

- Civic intelligence platform for citizen complaints with AI-powered analysis of government administration (**React**, **TypeScript**); glassmorphism UI in an Indian civic visual language.
- Cleared the college-level round of **Smart India Hackathon '26** with the team.

SocioTrack — Residential Society Management System two-person team

- Society management system (complaints, technician assignment, notices/alerts) replacing WhatsApp coordination — **React**, **TypeScript**, **Node.js**, **Express.js**, **MongoDB**.
- **JWT** authentication with bcrypt and role-based access for residents, administrators, and technicians.

FinGame — Gamified Personal Finance Tracker github.com/sachirokadia/FinGame

- RPG-style finance tracker turning saving into quests, XP, levels, badges, leaderboards — **React** + TypeScript + Vite + Tailwind frontend, **Node.js** + **Express** + **Prisma** over SQLite.
- **JWT** auth, expense tracking with category budgets, quest engine with level maps and friend rankings, badge hall of fame, Recharts spending visualizations.

ACHIEVEMENTS

- **Smart India Hackathon '25** (Ministry of Education, Govt. of India): selected for the national 36-hour sprint; built on a real government/industry problem statement.
- **VCET Hackathon '25** “Race to the Future”: built a working prototype for future-urban-challenges in a 24-hour hackathon.
- **Smart India Hackathon '26**: cleared the college-level round with JanMind.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, PHP, Java
Frontend: React, Next.js, Vite, Tailwind CSS
Backend: Node.js, Express.js, Laravel, JWT Authentication
Databases & ORMs: MongoDB, MySQL, PostgreSQL (Neon), SQLite, Prisma, Mongoose, Drizzle ORM
AI/ML: MediaPipe Tasks Vision, ONNX Runtime, OpenAI API, Claude API
Tools: Git, GitHub, Vercel, PHPUnit; AI-assisted development (Kiro, Lovable)

CERTIFICATIONS

- **Database Foundations** — Oracle Academy, 2024
- **Java Fundamentals** — Oracle Academy
